Join audio

The first page that will appear is the audio settings. Please ensure ahead of the lesson that your microphone and speakers/headphones are working. Speak to test your speaker and if you are getting any feedback/ can hear yourself, click on 'Stop audio feedback.' Click join audio to proceed.

A screenshot of a "Webcam settings" dialog box. The dialog has a white background and a dark border. At the top right is a close button (X). Below the title bar, there are two tabs: "Webcam settings" (selected) and "Virtual background settings". Under the "Webcam settings" tab, there are three sections: "Camera" with a dropdown menu showing "FaceTime Camera", "Quality" with a dropdown menu showing "High definition", and "Brightness" with a slider ranging from -100 to 100, currently set at 0. Below the slider is a checkbox labeled "Whole image". At the bottom right, there are two buttons: "Cancel" and "Start sharing".

Cancel Start sharing

If your child wishes to appear on screen, they should select the blue 'Start sharing' button. If they do not want to, just click 'cancel' and they will then enter the lesson room. During the lesson, they can also turn off/on their webcam. If the wifi connection for the lesson is slow, please turn off the webcam.

The screenshot shows the REACH Tutoring lesson room interface. On the left is a sidebar with sections: NOTES (Shared Notes), USER MANAGEMENT (Waiting Users), LIBRARY (Content library), and USERS (1) with a user icon labeled 'Pa'. The main area displays a slide titled 'Welcome to your lesson' with a yellow and blue curved background. The top of the slide has a REACH Tutoring logo and navigation icons. The bottom of the slide shows 'Slide 1' and zoom controls. A bottom toolbar contains icons for adding content, text, microphone, eraser, and a smiley face. A yellow arrow points to the microphone icon. The top of the interface shows a timer at 01:33 and a red exit button in the top right corner.

Once your child goes through the other steps, they will join the lesson room, which will look something like this. If they have selected 'cancel' at the webcam step, they will need to click the microphone button to enable their mic. Please contact us on WhatsApp if you have any issues getting logged in ahead of your child's first lesson. To exit the lesson, click the red button in the top-right corner or just exit the browser.
